COVID-19 REVIEW

Share your views on how Jersey's government dealt with the pandemic

The Covid pandemic was a difficult time for many people in Jersey.

The independent Covid Review panel would like to hear from Jersey people, community groups, and business interests about their experiences of the pandemic; what went well or badly and what you think the Government can learn from this demanding period.

The States Assembly on 17th December 2021 decided to appoint an independent Review Panel to provide an impartial analysis of the actions undertaken by Government as part of the Island's response to the Covid-19 pandemic.

The Review has appointed independent members to the panel who are taking the views of Jersey people confidentially. The panel will provide recommendations and guidelines for the management of any future pandemic or comparable event.

The Review is focusing on evaluating the policies, decisions, and actions taken by the Government of Jersey and its partner organisations. They are not dealing with individual complaints, cases of care, or service delivery.

You are therefore invited to submit your views either online via the website: www.covidreview.je or by post to: Covid Review Panel, PO Box 700, Jersey, JE4 0PE. Closing Date is May 8th.

Partilhe as suas opiniões sobre como o governo de Jersey lidou com a pandemia

A pandemia Covid foi um período difícil para muitas pessoas em Jersey.

Um Painel de Revisão independente gostaria de ouvir as pessoas de Jersey, grupos comunitários, e os interesses empresariais, sobre as suas experiências com a pandemia, o que correu bem e mal, e o que acham que o governo pode aprender deste período tão desafiante.

A 17 de dezembro de 2021, a Assembleia dos Estados decidiu nomear um Painel de Revisão independente para fazer uma análise imparcial das ações do governo como resposta da ilha à pandemia Covid-19.

Nomearam-se membros independentes para fazer parte do Painel de Revisão para, confidencialmente, recolher as opiniões das pessoas de Jersey. O painel criará recomendações e diretrizes para a gestão de uma futura pandemia, ou evento comparável.

O Painel está a concentrar-se na avaliação das políticas, decisões e ações levadas a cabo pelo Governo de Jersey e as suas organizações parceiras. Não está a lidar com reclamações individuais, situações de cuidado, nem com a oferta de serviços.
