Visite du Branchage

Having considered the reports prepared by the Vingteniers and Roads Inspectors, the Visite proceeded around the Parish and visited sites where potential infractions had been identified.

After inspection, and on the advice of the Roads Committee and Centeniers, the Connétable decided that nine financial penalties were appropriate.

Resurfacing of La Neuve Route

During the Visite, the Roads Committee inspected the southern half of La Neuve Route and considered two estimates (Pallot Tarmac - £70,070.70 and ADM Asphalt - £58,992.44) for resurfacing approximately 965 square metres of the road, together with the adjustment of various pieces of ironwork. Following due consideration, the Roads Committee agreed that, subject to a satisfactory review of similar work undertaken for another Parish, ADM Asphalt would be instructed to undertake the resurfacing work.

The Visite du Branchage finished at 5:00pm.
