Visite du Branchage

Having considered the reports prepared by the Vingteniers and Roads Inspectors, the Visite proceeded around the Parish and visited sites where potential infractions had been identified.

After inspection, and on the advice of the Roads Committee and Centeniers, the Connétable decided that one financial penalty was appropriate.

Les Fontaines, La Rue de Dielament, Trinity

The meeting attended on site and heard from the property owner that part of the property flooded in heavy rainfall. The owners requested permission to install a gulley from the road down the side of the property to take excess water to the stream at the bottom of the garden. Having considered the matter and viewed the site, the Roads Committee unanimously approved the request.

La Rue du Catel

Following its meeting on 23rd July 2025, the Roads Committee visited the site and noted that, while the banque had been reinforced, there was still a lot of debris at the foot of the banque. It was agreed that a letter would be sent to the occupier of the property asking them to clear the debris before it got into the well and in order to facilitate the free flow of water.

The Visite du Branchage finished at 5:00pm.
